To Whom It May Concern:

I am writing this letter on behalf of Marinell and Olivia Iliuc and their Adult Family Home in Bellevue. Over the course of the last several years I have had the opportunity to visit their home many times in my capacity as a Home Health Nurse. I have always been impressed with the care provided to residents there. The care is individualized, attentive and loving. The home itself is beautiful – warm and comfortable. As for Olivia and Marinell, I have come to know them as hardworking, kind, generous and talented people, totally dedicated to maintaining a high quality of life for their residents. I recommend their home wholeheartedly.

Sincerely,

Karin S. Maletta
