Dear Marinell & Olivia,

Re: E.T.D. Home Care INC.

We are writing to thank you for the care of five plus years your home gave our loved ones. Through friends of ours, is how we came to know you and the care you gave the residents of E.T.D. Home Care.

Your home went beyond our expectations of a 24 hour adult home care facility. When we choose your home to care for our aunt suffering from alzheimers. And then placing our father in your home who suffered from heart disease and the re-occurrence of the damage done by polio he had some fifty years ago. We couldn't have been more satisfied. Our appreciation for the respect and warm caring ways your home had to offer the grandma's and grandpa's your took care of. They were always clean as well as their clothes they wore. And your home was **always** free from any odor. There were always home cooked meals you made from high quality foods. There were times we recall when you would make a meal for our dad at two or three in the morning because he was hungry. Also taking your residents to and from their needed appointments, doctors, dentist or any other needed appointments they needed. Then report back to the family. And with your very busy schedule you found time to take those grandma's and grandpa's that were able to go, see the tulip fields, Christmas lights, to a park or beach. You also provided those special parties not only for your residents but also for their families.

So if you are looking for a home that is state licensed and truly cares for your loved one, we recommend E.T.D. Home Care INC.

Sincerely,

Everett & Pam Woods
